## INSTRUCTIONS

1. Start out by using a water based marker to mark your triangle sections.
2. Leave a small space under each triangle and sketch in your hexagon.
3. Use 3 coats of your desired colors to fill in each triangle and the hexagon.
4. When the shapes are dry, use your small sponge dabber to apply Snowflake dots to the triangles. We used both the sponge end and the stick end to get different sized dots.
5. Then, use the sponge dabber (both ends) to apply your desired colors of dots to the hexagon.
6. Finally, use the stick end of the sponge dabber to add the Licorice dots to the edge of the plate.

## TIPS

- Three coats of paint will make solid colors that pop.
- The marker will disappear in the kiln, it's nice to palm out your writing before painting it in.
- If you want the dots to be the same size, dip the end into paint each time you stamp it down.
